

# How to update box via usb device

Some time that box don't enter menu or repeat reboot.

You can refresh the box via usb device .

Please check the following step:

- 1) Power off box
- 2) Copy firmware to usb device root dir.

Sample :

Rename the last firmware v8combo\_v3.710.71.bin to flash.bin

Send flash.bin to usb device

- 3) insert usb to box
- 4) Power on box and quickly press menu key on remoter till TV show update information

**Usb upgrade! Do not power off!**

- 5) Waiting box auto reboot.
